## Georgia Power – 2010 Heat Pump Rebate Existing Single-Family Customers

**Dealer Rebate Offer:** continues through March 31, 2010

- \$200 Rebate to HVAC Dealers / Salesmen

**Customer Rebate Offer:** between January 6, 2010, and March 31, 2010

- \$200 Rebate for 13 SEER
- \$400 Rebate for 14 SEER or higher, including ENERGY STAR® Qualified Heat Pumps

### Definition:

Single-family residential customer is defined as a detached home, a duplex, a mobile home, a townhome, or an owner-occupied condominium.

### Program Qualifications:

- Single-family residential customers converting from gas heat to an electric heat pump or a dual-fuel heat pump system
- Single-family residential customers adding on an electric or dual-fuel heat pump to a previously unconditioned space (basement, sunroom, bonus room, addition)
- **Equipment installed between January 6, 2010, and March 31, 2010, with notification to Georgia Power by March 31, 2010**

### Equipment Guidelines & Qualifying Rebate:

- |                           |                   |       |
|---------------------------|-------------------|-------|
| • Unitary Split Heat Pump | 13 SEER           | \$200 |
|                           | 14 SEER or higher | \$400 |

**Non-qualifying systems:** Window units, heat pump to heat pump replacements, electric resistance to heat pump, and any heat pump system replacing existing conditioned space

Georgia Power is an ENERGY STAR partner. ENERGY STAR-qualified heat pump systems that meet or exceed EPA guidelines for energy efficiency are highly recommended. ENERGY STAR QUALIFICATIONS can be found at <http://www.ceedirectory.org>.
